Samantha Wayne Gonzales

Front-End Developer Intern

0992-366-6772 gonzalessamd@gmail.com samifiedesign.netlify.app github.com/sammyvie

PROFILE

Front-end developer building responsive web and mobile applications with Vue.js, TypeScript, Angular, and Flutter. Brings a business perspective from a B2B lead generation internship, with hands-on experience in outbound prospecting, lead research, and SEO. Combines technical precision with a practical understanding of sales and marketing to help teams ship polished, growth-focused products.

TECHNICAL SKILLS

Front-End Dev — HTML & CSS · Vue.js · TypeScript · Angular · JavaScript · Flutter & Dart · WordPress

UI/UX & Design — Figma · Wireframing & Prototyping · Interaction Design · User-Centered Design · Design Systems

Marketing & Sales — Outbound Marketing · Lead Generation · Prospecting · LinkedIn Sales Navigator · Apollo.io · Hunter.io · SEO

Workflow — Git & GitHub · Netlify · Component-Based Architecture · Cross-Device Testing · Agile Collaboration

Soft Skills — Team Leadership · Project Coordination · Stakeholder Communication · Time Management

EXPERIENCE

Business Development Representative *Internship*

— Circle Outsourcing Solutions Inc. · Clark Freeport Zone, Pampanga · On-site

- Ran outbound marketing and sales prospecting for a B2B outsourcing company — researching target businesses, building lead lists, and starting conversations through LinkedIn engagement and tailored outreach messages.
- Sourced and verified prospect and contact data using LinkedIn Sales Navigator, Apollo.io, Hunter.io, Clutch, and Google Maps, then organized and tracked leads in Google Sheets and Excel.
- Supported the team's SEO tasks and contributed web development work, applying front-end skills in a sales and marketing environment.

PROJECTS

Paya Street Website *Group Project*

— Front-End Developer

- Architected a reactive multi-page coffee brand website in Vue.js and TypeScript — implementing responsive component-based layouts across mobile, tablet, and desktop with CSS animations.
- Drove project coordination from design handoff to deployment — managed team task distribution and sprint timelines to ensure consistent, on-schedule delivery.

TeamUp Platform *Group Project*

— Front-End Developer

- Engineered Angular and TypeScript front-end components for a gamified developer platform — implementing 3 core UI modules: mission cards, character role profiles, and rank overlays.
- Translated high-fidelity Figma designs into responsive, interactive web UI — maintaining design fidelity while ensuring component reusability across the application.
